We a team of 60 healthcare professionals at QMAGNA would like to reach out and assist you in streamlining and managing your current operations.

We assist Healthcare Providers across specialties by managing their Patient Information Data, as well as Back-Office Operations, enabling them to focus on their key business areas. We, at QMagna, focus on delivering quality service at cost-effective prices.

Our Services include but are not limited to
1. Medical Billing and Coding
2. Accounts Receivable Management Services
3. Patient Record & Medical Transcription

MEDICAL BILLING AND CODING:
Our team ensures the below services are delivered accurately and in a timely fashion
Patient Demographic Entry (includes registration) – Ensuring Accuracy of the data entered is in accordance with the standard practice.

Eligibility Verification: we take care to ensure the patient's insurance coverage, treatment eligibility, and pre-authorization requirements are cross-checked as per carrier policy terms to avoid claim denials.

Medical Coding: We ensure the medical records are thoroughly checked and the standard protocol of assigning codes to medical procedures, diagnosis, treatment modules and any ancillary service is correctly done.

Charge Entry: Following coding, assigning correct fees associated with the treatment/procedures into the billing software to generate correct final service charge.

Claims Submission: Our expertise in working with various clearing houses ensures timely electronic submissions and follow-up

Payment Posting: Our highly skilled and experienced executives do Insurance payment posting, Self-pay posting and Denial posting, maintaining high levels of accuracy and confidentiality. Posting the insurance paid amounts (EOB) and updating financial records in a timely fashion reduces unnecessary costs involving wrong billing, wrong invoicing or double billing practices.

Our Medical Billing and Coding services are comprehensive and we ensure HIPAA regulations are duly followed. We guarantee 98% & above accuracy and compliance with all government regulations.

AT **QMAGNA** our focus is to bill the claim right the first time which ensures clean claim and fewer denials.

Our team of highly skilled coders with proven ability in giving high-quality results within set deadlines, cater to multiple specialties like

- Evaluation and Management Billing
- Radiology Billing
- Anesthesia Billing
- Ambulance Billing
- Emergency Department Billing
- Medical Coding Audit Services

We are also undertaking a training program to cater to more specialties in future viz Hospice, Inpatient, Neurology, Oncology, Pathology, DME (Durable Medical Equipment) and Cardiology services
